FOREWORD

It is with pleasure that I introduce the 1987 Municipal Directory.

Since it is intended to produce a more accurate and adequate Municipal Directory, the following changes have been incorporated: the index to municipalities has been placed in the front of the publication; a section of several maps illustrating the location of all municipalities has been included, as well as the addition of sheriffs' offices and other school boards.

I extend my best wishes to all local officials and others whose efforts have made the 1987 Municipal Directory possible.

Bernard Grandmaître
Minister of Municipal Affairs

March, 1987

INTRODUCTION

Enquiries

Please direct any general municipal enquiries, comments or amendments to the Directory to:

Provincial-Municipal Affairs Secretariat
Ministry of Municipal Affairs
13th Floor, 777 Bay Street
Toronto, Ontario
M5G 2E5
416-585-6284

For specific municipal enquiries, contact the appropriate Ministry of Municipal Affairs Field office. See page 221 for listing.

When using this Directory, the following should be noted regarding:

MUNICIPAL TABLES

Addresses

Where the name of a municipality is the same as that in the address cited for its municipal office, the name of the municipality has been omitted. Where the location of the municipal office differs from the postal address, the street address is also shown where possible.

Assessment

Presentation of taxable assessment data has been discontinued as local taxable assessments are not comparable between municipalities and have led to misleading inter-municipal comparisons. Information concerning municipal assessments may be obtained from the Municipal Management Policy Branch, Ministry of Municipal Affairs, or from the area or regional assessment office.

Telephone Numbers

Telephone numbers shown are the public numbers for a municipal office where they exist; in other cases, they are that of the Clerk or Clerk-Treasurer.

Population Data

Population data now refers to those persons residing in a municipality on a permanent basis. The criteria used to determine permanency are those pertaining to the definition of "residence" and similar expressions used in relation to a person as set out in The Municipal Elections Act and The Elections Act. Accordingly, the 1985 enumerated population includes residents of such institutions as long-stay mental health centres, penitentiaries, training schools and Canadian forces bases. Cottage populations have not been included unless the cottages have been converted for full-time occupancy purposes. Residents of jails, short-stay general hospitals and Indian Reservations have not been included. The 1985 population totals have been taken from enumeration reports completed by the Ministry of Revenue in the fall of 1985 and are considered to be verifiable and comparable across Ontario. It is the policy of the Ministry of Revenue to conduct enumerations only in municipal election years; hence these enumerated population figures will not change until 1988.

Households

This term refers either to a 'single family dwelling unit - or a portion of a building which is a domestic establishment - consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals'. Household data is assembled from the last but one returned assessment roll.

Area in Hectares

Hectare figures are provided by the Municipal Management Policy Branch, Ministry of Municipal Affairs, and are considered to be verifiable and comparable across Ontario. Hectare data includes annexations occurring on or before January 1, 1987.

1 acre = 0.4046856 hectares
1 hectare = 2.471054 acres

Municipal Associations

The listing of municipal associations in Ontario is not intended to be an exhaustive one. It has been compiled from a register of municipal associations known to the Provincial-Municipal Affairs Secretariat or otherwise prominent in local government in Ontario. Municipal associations are invited to register with the Secretariat and to advise of their particular fields of interest, meetings, conventions, etc.

GLOSSARY

Municipality is an area whose inhabitants are incorporated. Its powers, except in the case of an improvement district, are exercised by a council composed of individuals elected by the electors of the municipality.

Local Municipality means a city, town, village and township.

Area Municipality is a local municipality within a regional municipality, the Municipality of Metropolitan Toronto, the District Municipality of Muskoka, or the County of Oxford.

Improvement District is a municipality. Its powers are exercised by a board of trustees appointed by the Government of Ontario; the actions of the trustees are subject to Provincial supervision. This type of municipality has been established in previously unsettled or sparsely settled areas, without municipal organization, where a new resource industry located and municipal government was required immediately. Once a new resource community becomes more established, the improvement district is usually replaced by a conventional local municipality with an elected council.

Separated Town is a town which is separated for municipal purposes from the county in which it is located and therefore has no representation on county council. Historically this separation was achieved by a council by-law which required the assent of the town's electors. The Municipal Act no longer permits such a course of action by a town.

Police Village is a settlement within a township municipality whose electors elect three trustees to exercise certain statutory powers. It is not a municipality, but remains part of the township for municipal purposes. Money is raised for the police village's purposes by the township imposing an additional tax levy on the taxable properties in the village.

County is a municipality which is a federation of the towns, villages and townships within its boundaries. Each of the participating local municipalities in the county has an elected council, and designated members of all of these councils combine to form the county council. The county is responsible for a limited number of functions, with major roads being the most important one. The local councils are responsible for the majority of municipal functions.

Cities and separated towns, even though geographically part of the county, do not participate in the county political system. The councils of these local municipalities are responsible for most municipal functions within their boundaries.

County geographical boundaries are used for judicial and a number of administrative purposes.

Regional Municipality is a municipality created by a special act of the Ontario legislature, and is a federation of all the local municipalities within its boundaries. Each of the local municipalities in the region has an elected council, and designated members of all of these councils combine to form the regional council. In the case of Niagara, the regional council is composed of the mayors of the local councils and individuals elected directly to the regional council who do not sit on a local council. The regional councils are responsible for regional-scale functions such as overall land-use planning, social services, major roads, and trunk sewer and water systems. The local councils are responsible for community services such as recreation, libraries, local roads and garbage collection. The ten regional municipalities in Ontario are similar in some ways to counties. One major difference is that regional councils have many more responsibilities than do county councils. A second is that cities are full participants in the regional system, in contrast to their separated status in the county system.

Regional boundaries are used for judicial and a number of administrative purposes, as well as for municipal purposes.

The Municipality of Metropolitan Toronto is basically a regional municipality, and includes the cities of Etobicoke, North York, Scarborough, Toronto and York. The Borough of East York is a local municipality with the status of a township.

The District Municipality of Muskoka is basically a regional municipality which covers the entire territorial district of Muskoka. It includes six local municipalities - three towns and three townships.

The County of Oxford is a restructured county system and is basically a regional municipality. It includes the City of Woodstock, two towns, and five township municipalities.

Territorial Districts are divisions of that part of Ontario which does not have county organization. Every district contains a number of local municipalities, but all except Muskoka also include areas which have no municipal structure. The district boundaries are used for judicial and a number of administrative purposes. However with the exception of Muskoka, territorial districts, unlike counties, do not serve any municipal purpose.

District Town is the main location in a territorial district of the Province's legal and judicial systems, including facilities for the courts, Sheriff, Crown Attorney, personal property and land registration, property assessment, and related activities. "District town" is not a legal or municipal designation and is not necessarily either a town or the largest urban centre in the district.

Electoral District is an area of Ontario whose composition and boundaries are described in the Representation Act currently in effect. The Representation Act reflects a report from a three member commission headed by a Supreme Court Judge which is appointed periodically to review boundaries, hold public sittings and make proposals.

The electoral district names and numbers shown in this issue (shown beside the municipality to correspond with the number assigned to the electoral district listed at the bottom of the page) represent those in effect as of Jan. 1, 1986.

Wards are internal divisions of a municipality which are established for the purpose of electing members of municipal councils and local boards.

Mayor is the head of a city, town or area municipal council, and is elected by the electors of the entire municipality for a three year term.

Reeve is the head of a township or village council, and is elected by the electors of the entire municipality for a three year term. The reeve is also the member of a town council who represents the town on the county council.

County Warden is the head of a county council, and is elected from among the council members for a one year term by the council.

The warden of Oxford County is the head of the Oxford County Council, and is elected from among the Council members to hold office for the term of office of Council.

Regional Chairman is the head of a regional council, and is elected to hold office for the term of council by the council. The chairman may be elected from among the members of regional council or from outside the council. Once elected, a regional chairman with a seat on council must resign that seat.

The chairman of the Metropolitan Toronto council and the chairman of the Muskoka District council are the heads of their respective councils and are elected in the same manner as the regional chairmen.

Chief Administrative Officer is the senior staff member of a municipality. Many municipal councils have appointed such a person, usually called the 'CAO' or some variation such as 'manager', 'clerk-administrator', or 'clerk-comptroller'. In smaller municipalities, this individual will often hold another staff position as well as being responsible for administration.

Clerk is the member of staff whose major duties are to record all resolutions, decisions and other proceedings of the council, and to keep its books, records, accounts and other documents. Every council is required to appoint a clerk.

Treasurer is the member of staff whose major duties are to receive and keep all money of the municipality, to issue cheques on behalf of the council, and to prepare the financial statements. Every council is required to appoint a treasurer.

Road Superintendent is the member of staff who is responsible for administering and managing the municipal road system under the direction of the council, or, in the case of a county, of the county road committee.

Chief Building Official is the member of staff who is responsible for enforcing the provisions of the Ontario Building Code, and of any by-laws which the council may pass to govern the construction and use of buildings within the municipality.

AREAS WITHOUT MUNICIPAL ORGANIZATION

Unorganized Territory means, in the strict legal sense, that part of Ontario without county organization. In practice the term is generally used to describe those parts of the territorial districts which have no municipal organization of any kind. The more accurate term for such areas is 'territory without municipal organization'. Residents of these areas who need information about the various government services available to them and about laws and regulations which affect them and their property should contact the nearest Northern Affairs Office of the Ontario Ministry of Northern Development and Mines. The addresses and telephone numbers of each of the offices are listed on pages 222 - 223 of this Directory.

Local Services Boards are legally constituted bodies of members elected to act on behalf of the residents of an unorganized community (a community with no municipal structure under The Municipal Act) to ensure that basic services such as water supply, fire protection, sewage disposal, street lighting, garbage collection, or recreational programs are provided on a continuing basis. Half the operating revenue is raised from the residents of the community and the other half is provided by the Ministry of Northern Development and Mines.

REGIONAL ASSESSMENT OFFICES

Under the administration of the Field Services Branch, Property Assessment Program, Ministry of Revenue, the Regional Assessment Offices identify and revalue all properties at market value; prepare and provide assessment rolls and notices for municipalities and school boards; prepare defence of assessments; take enumerations for voters' and jurors' list purposes; maintain a statistical file and supply data needed for municipal purposes.

REGISTRY AND LAND TITLES OFFICES

Under the administration of the Registration Division, Ministry of Consumer and Commercial Relations, land registry offices operate under the Land Titles and/or Registry system and maintain records of ownership and encumbrances affecting real property. The registration of interests in Personal Property is also effected through land registry offices.

SHERIFFS' OFFICES

Under the administration of the Ministry of the Attorney General, Sheriffs in judicial districts and counties carry out the orders of the District and Supreme Courts of Ontario and summon jurors for jury duty in these courts. They put into effect writs of execution and serve documents on behalf of members of the legal profession and the public. Sheriffs are in charge of the county court house (e.g. maintenance, security, etc.).
